

HALF-DAY

Working Lands Workshop

Aug 4, 2026 | Lemmon, SD

Where Experience Meets Innovation

Overview

Join the South Dakota Grassland Coalition for an on-ranch workshop exploring how bale grazing can improve efficiency, reduce feeding costs, and build healthier soils.

- Why bale grazing works—and when it makes sense
- Choosing the right locations for bale grazing
- Planning and setting up a successful bale grazing system
- Expected impacts on soil health, forage production, and nutrient distribution
- Practical management tips and lessons learned
- Virtual fence plans & discussion
- Questions, discussion, and producer-to-producer learning

Aug 4

9:00am-12:30pm

Anderson Ranch

19963 Lemmon Lake Rd
Lemmon, SD
